

WELCOME HOME WGC

You ladies and gentlemen
Students as well as faculty
The whole Hekima family
I see your faces so blissful
Your voices full of melody
Your eyes so interested
Your bodies so ecstatic
Tell me: What's up today?

It seems you are totally lost
Confused and uninformed
Your faces sheepishly puzzled
Your voices so very doubtful
Your eyes so disbelieving
Your bodies obviously cold
Shake off your miserable mood
Join us in our special jubilation

Stop bluffing, answer the query
I also see very strange faces
They don't look very familiar
Never have I seen them in Bukoba
I have never met them at the shops
But they look so much contented
Confident and unusually smug
I ask: what's exactly going on?

And you stop being so paranoid
Come join us in our unique joy
To welcome our long-time companions
True comrades-in-arms
Indeed friends in need
Extraordinary gallant women
From the universal family
The Women's Global Connection

What exactly do you mean?
Long-time companions
True comrades-in-arms
Indeed friends in need
Extraordinary gallant women
Universal family
And Women's Global Connection?
To me they look like any other

Yes, they look like any other
But their mission and vision are not
Their work is not like any other
Their dedication isn't like any other
Their inspiration isn't like any other
Their achievement universally is different
Their love and concern to women is special
Their assistance to Hekima is exemplary

Please tell us how they are different
How different are their mission and vision?
What exactly is their work?
Their dedication and inspiration
Their achievement, love and concern
Their assistance to Hekima
How exceptionally exemplary are they?
Please, kindly let me know.

They coordinate women's issues universally:
Coordination of women's efforts and experiences
Coordination of women's development ideas
Enabling universal cultural exchange
Mobilizing resources for women's development
Motivating women out of fright and indignation
Sacrificing in making educative tours of the world
And making great leaders out of women.

To Hekima they have done quite a lot
Running education and leadership workshops
To both student girls and staff members
Donating very modern training gear
For instance computers and projector
Installing and paying for the internet
All of which have enabled us to do better
In knowledge as well as exams

Wow!
If they are doing and have done so much
Then there is good reason for jubilation
Let me join you in welcoming them
In hailing them for their noble task
The Hekima girls look normal physically
But inside they are totally transformed
We communities around them testify thus.

If these people are envoys from WGC
Then let me join hands with you
In whole-heartedly congratulating them
For their wonderful sacrifice;
We women are tired of being push-carts
But our fate is in our both hands
There is no good reason to fall in the same pit
When there is someone in front of you.

Welcome home dear ambassadors
And thank you very much for everything
Because of you Hekima is no longer the same
The girls and staff are no longer the same
Our attitude and vision are different
We now think and dream big
Though we still have a long way to go
We're positive that one day we'll be there.

Thank you again and again WGC
Hekima has always its doors open
Goodbye for now and karibuni tena.
